Dan,

Per the Kell Recycle Brochure which was faxed to you, this is the pertinent information regarding our boxes:

+ At least 33% of every corrugated box is made from recycled fibers. This brochure has not been updated in quite some time, and that percentage increases each year. We do not have a definite percent of recycled fiber at this time. (pls continue to next statement)

+ All corrugated mediums used by Kell are made of 100% recycled material. This already accounts for total recycled content at well over 33% currently.

If you have any other concerns, please feel free to contact us.

Sincerely,

A handwritten signature in black ink that reads "Tim Harvey". The signature is written in a cursive style and is positioned above the printed name.

Tim Harvey
